The main text and the author's names use Times New Roman font, 12 point. Type or paste your text into this file, but remember to keep the page margins the same as set here, which is 2.5 cm all around. Paragraphs are justified (straight-edged) on both left and right. Use single-line spacing and leave a line gap between paragraphs. This helps your text to be read easily.

The limit for your abstract is one page, including references. Abstracts that do not meet these formatting requirements will be returned.

References (if needed)

References must appear at the end of the abstract in the order in which they are referenced in the body of the abstract. The font should be 10 point, and the references should be aligned left. Within the main text, references should be designated by a number in brackets [1], and they should be followed by a comma or period [2]. Two references cited at once should be included together [3,4], separated by a comma, while three or more consecutive references should be indicated by the bounding numbers and a dash [1–4].
